

## Preschool Academy: Working with Special Education Students in the General Education Setting

This Academy will offer go over teaching techniques and tools to use in the classroom when working with students that need extra support in learning. We will review how to support language, behavior and learning skills. You will leave with handouts and ideas on implementing the tools and techniques discussed. I will review how to work with students IEP goals and objectives and use the accommodations and modifications on their IEP's to help you.

Date: Saturday, February 22, 2020

Time: 9:00 am - 12:00 pm

Deadline: Thursday, February 20, 2020

To register, visit: <https://www.ctaeyc.org/saturday-academy>

### Learning Objectives:

- To leave the workshop with materials you can use immediately to work with your students in need of support
- To learn techniques that you can implement to work with students in need of support
- To learn how to understand an IEP, the parts of it and how to use it to help you teach
- To understand how teaching students in need of support aids all students in the classroom
